Memorandum

To: Chief Academic Officers and Provosts

From: Dr. Paula Compton, Associate Vice Chancellor, Ohio Articulation and Transfer Network

Date: September 4, 2019

Subject: Continuation of Campus Liaisons

Dear Provosts and Chief Academic Officers,

Last year our Career-Technical Credit Transfer team asked that you nominate a Campus Liaison for the purpose of serving as a primary contact for all activities related to the implementation of The Secondary Career-Technical Alignment Initiative. We would like to continue with this model and request either the confirmation of the same appointee as Campus Liaison or the nomination of someone new.

This year we will continue to focus on participation in Career-Technical Assurance Guides (CTAGs) and will be working with institutions for full compliance. Similar to last year, the Campus Liaisons will be responsible for reports, attending meetings, and the dissemination of information. In some cases, Liaisons will be asked to help with the coordination of activities on campus related to compliance.

Also similar to last year, the work of the Campus Liaisons will be supported by Perkins funding. A Memorandum of Understanding will be sent to your campus upon confirmation or nomination of a Campus Liaison, or shortly after. This may be done using the following [link](#). Please respond by Friday, September 20th. For your reference, a list of current Campus Liaisons is attached.

If you have any questions please contact Nikki Wearly at nwearly@highered.ohio.gov or 614-728-2662. Thank you for your continued support.
